Unknown

The O.C. Supertones

Killin' ourselves faster than fast
Livin' in the future, livin' in the past
I haven't always been in Christ
I know what you're goin' through, manA couple of years ago I was just like you
Lookin' for answers, but lookin' to myself
Thinkin' that Christians just love Jesus for their healthBut I didn't know about Jesus
I didn't know about JesusI tried to be like God but when I tried I failed
And every time I fail and fail
I know I rail a nail straight into the cross of Jesus
Straight into the wrist of JesusAnd now it's 1996, a hard year to be a godly man
It seems the more I speak the word
The less they understandYou gotta know about Jesus
You gotta know about JesusI tried to be like God but when I tried I failed
And every time I fail and fail
I know I rail a nail straight into the cross of Jesus
Straight into the wrist of JesusAnd now it's 1996, a hard year to be a godly man
It seems the more I speak the word
The less they understandBut you gotta know about Jesus
You gotta know about JesusAnd now I know about Jesus
And now I know about Jesus
