

The Dream (feat. Jr Reynolds)

[J Willy](#)

The Dream by J Willy

Well, life is life
But how you live is up to you
We wake up without thinkin
But I'm just thankful that I do

See the sunrise
With you til the sunset
This is just the start of the journey
I'm not done yet

I sip it til I feel it
And write til it's goin
I got a royal flush dream
What the hell are you holdin

I love my city, my music,
And my family
If you can't relate to that
Then you'll never understand me

I got dorm rooms bumpin this
My drink has a Russian twist
Drop an album
Just got checked off the bucket list

Retro throwback
Rockus jersey
Til the city's on my back
Ya heard me

Every dream has a seam
In their raw hands sewn
I like to stay away
But can you take me back home

Take me back to like a lot where
You skip school and never got cut or
Take me back to the late nights with

The captain in my cup and a dropus mic

Felt so right, me and her
Happened so fast
Now it seems like a blur
She broke it off like I don't care
Well if you don't care, then I don't care

Think I fell in love
But I'm still not sure
Might of been drunk
But the words I slurred
Me and her, that's just too many words

Lost in the thrill of it all
And I'm zonin baby
Just chillin how
I'm supposed to be

I'm livin free
Yea, no stoppin me
Livin out my destiny
And when I look back on my life
Wouldn't have it no other way

This is what you call the dream
Dream
This is what you call the dream
Dream
This is what you call the dream

It's a day one scheme
With the day one team
On the day one dream
Makin day two green

Day two green
That's good money
Being broke is a joke
But it's not that funny

Fit in the gym
Fit in the goose
USA

Like I salute

Drinks on drinks

Like yes please

Shots on life

Like red scheme

Ray ban tan

Man I'm feelin like I'm zoned in

Finally livin free

Chapter 8:1 Romans

Got a call from L.A.

They wanted me to sign papers

My heart stopped

I think I need a pace maker

Made a couple grand

On some mediocre flow

So I dropped those flows

And I set new goals

Now I get asked is the rap game worth it

Hold up is the rap game worth it

Music is life

Life ain't perfect

Ugh, life ain't perfect

Try to find an inch

But I won't stop searchin

I might graduate

But I won't stop learning

Earnin

Nothin but the big bucks

I been down

Now it's time for me to get up

This life is God given

So glory to the highest

But we got al these artists lyin

Lord they should buy this

Yea, I tried that

But I'ma try this

Thank you for this life God

Glory to the righteous

It's a battle
And Lord I'ma fight this
And as I write this
You can guide my right wrist

Lost in the thrill of it all
And I'm zonin baby
Just chillin how
I'm supposed to be

I'm livin free
Yea, no stoppin me
Livin out my destiny
And when I look back on my life
Wouldn't have it no other way

This is what you call the dream

This is what you call the dream
Dream
This is what you call the dream
