

I Dream Myself Alive (Demo)

[a-ha](#)

Dream myself alive, I dream myself alive
You can't deny
There's something dark against the light
All I can say
It doesn't have to be this way We'll be chasin' our tails madly
See days pass like wildfire
Right from the start
I knew this world would break my
Heart I dream myself alive
Dream myself alive
I dream myself alive
Break my heart
And dream myself alive
What can it mean? I'm drawing pictures of the sea
Right from the start
I knew this girl would break my heart
