

Wolves at Bay

Fozzy

You like to hunt, your game is fear
I was the one, your souvenir
This is a fight, the one that you've been asking for
You did incite the call for us to go to war Pushing and pushing
Giving me no choice
Humiliate, intimidate
Until I hit the breaking point Back to the wall
Keeping the wolves at bay
Fight my way out
'Cause it's the only way I'm the fearless, I'm relentless
I'm the dog that you can't break
I'm the outcast, thought you could outlast
I've had enough, there's only so much I can take
It's just a game, try to break me down
Need me to blame for how your life turned out
You think that the pain will go away
If you become the wolf and I become the prey Pushing and pushing
Giving me no choice
You set the fire
And brought me to the boiling point Back to the wall
Keeping the wolves at bay
Fight my way out
'Cause it's the only way I'm the fearless, I'm relentless
I'm the dog that you can't break
I'm the outcast, thought you could outlast
I've had enough, there's only so much I can take
Back to the wall
Keeping the wolves at bay
Fight my way out
'Cause it's the only way I'm the fearless, I'm relentless
I'm the dog that you can't break
I'm the outcast, thought you could outlast
I've had enough, there's only so much I can take
