Sideways Figure Eights

Tanner Patrick

Another Day
Another breath trying to separate
The past from where I stay
Looking back, let it fade
Let it burn red into gray
Look alive, not afraid
Catch a ride back to youNot a reason to fear or to wait
In a picture perfect world
I wouldn't hesitateSideways figure eights
Dance in my headlights
You find ways to get away
Hide till your head's right
Forgive me for my history
Oh open your heart wide
And every day will feel like tonightI built a wall
Sky high I hope it holds
And when it falls
I'm stuck beneath it all
Looking back, I hate to say
It took a while to feel this way
Look alive, not afraid
Catch a ride back to youNot a reason to fear or to wait
In a picture perfect world
I wouldn't hesitateSideways figure eights
Dance in my headlights
You find ways to get away
Hide till your head's right
Forgive me for my history
Oh open your heart wide
And every day will feel like tonightTell me, can you relate?
I keep my past on replay, replay
Tell me, can you relate?
I keep my past on replay
It's cheaper than a movie oh oh
It's cheaper than a movie oh oh
It's cheaper than a red hot date
I take it day by day
Keep it movingNot a reason to fear or to wait
In a picture perfect world

I wouldn't hesitateSideways figure eights
Dance in my headlights
You find ways to get away
Hide till your head's right
Forgive me for my history
Oh open your heart wide
And every day will feel like tonightKeep it moving
Every day will feel like
Keep it moving
Every day will feel like
Keep it moving
Every day will feel like
Tonight...
