

Hope

Late Night Alumni

Can there be another way?
I look around to find another day
Hurt eyes are hard to see into eternity Hold on, knowing the rain is here
But we gotta believe it won't last, keep on hoping
I know it's hard but we have to believe it will pass Since this time it's hard to share
I won't be here, you won't be over there
Only love can ever take
You alone can find a way Hold on, knowing the rain is here
But we gotta believe it won't last, keep on hoping
I know it's hard but we have to believe it will pass There is hope, there is hope
There is hope, there is hope Hold on, knowing the rain is here
But we gotta believe it won't last, keep on hoping
I know it's hard but we have to believe it will pass There is hope, there is hope
There is hope, there is hope Hold on, knowing the rain is here
But we gotta believe it won't last, keep on hoping
I know it's hard but we have to believe it'll pass
