Days of Summer

Ana Johnsson

Remember a time when the summer'd never end
The whole world was waiting for me and my best friend
We'd sneak out, an' mess around, made up silly tunes
We sat by the bonfire staring at the moonWhere are the days of summer?
On top of the world, unstoppable
Where are the days of wonders?
When nothing's impossibleWe ran for the rainbow
The wind through sun blond hair
Feeling so invincibleWhere are the days of summer?
On top of the world, unstoppable
Where are the days of wonders?
When nothing's impossibleWhere are the days of summer?
The taste of a coming miracle
Where are the days of wonders?
When life was just beautifulWe lied down in the grass
Put our feet towards the sky
Pretending we could walk on cloudsRemember watching another rising sun
We promised each other to stay forever youngWhere are the days of summer?
On top of the world, unstoppable
Where are the days of wonders?
When nothing's impossibleWhere are the rays of sunshine?
The road to a rising miracle
Where are the days of wonders?
When life was but beautiful
