

# Make Me a Pallet On the Floor

Ottilie Patterson & Chris Barber's Jazz Band

Oh make me a pallet on the floor  
Oh make me a pallet on the floor  
    Make it soft and long  
Oh make it behind your kitchen door  
    But make me a pallet on the floor

    I'll get up in the morning  
    And cook you a red hot meal  
    I'll get up in the morning  
    And cook you a red hot meal  
    To show you I appreciate  
    Baby what you done for me  
When you made me a pallet on the floor.

    Oh make it very soft and long  
    Oh make it very soft and long  
    You can make it soft and long  
Oh make it behind your kitchen door  
So when your good gal comes home  
    She'll never know.
