

# Look for Me (I'll Be Around)

[Neko Case](#)

When you tire of all the bright lights  
Haste that's killing and you're willing to stay home nights  
When your feet are back on the solid ground  
Look for me, I'll be around When the new crowd starts to bore you  
Just remember there is someone to adore you  
When you're weary of nights out on the town  
Look for me, I'll be around May not seem exciting  
Way those others do  
In emotion, my devotion  
You will need some day as I need you When the kicks go, that it brings you  
You will hanker for an anchor just to cling to  
When you've lived it up, till it's got you down  
Look for me, look for me Look for me, I'll be around
