

Twist

Goldfrapp

Before you go and leave this town
I want to see you one more time
Put your dirty angel face
Between my legs and knicker lace Fight me, try me
Kiss me like you, like me
Twist it round again and again
Twist it round again and again I want to run away with you
Your caravan and rabbit stew
Don't buy me candy floss or bears
Swarfega fingers, I want you there Fight me, try me
Kiss me like you, like me
Twist it round again and again Fight me, try me
Kiss me like you, like me
Twist it round again and again
Twist it round again and again Ride me, try me
Kiss me like you, like me
Twist it round again and again Fight me, try me
Kiss me like you, like me
Twist it round again and again
Twist it round again and again
Twist it round again and again
