

# Climb a Hill

## Mad Dog Mcrea

Get to a big hotel and a five star feast,  
Wine women and song a fine display of greed,  
Loads of seagulls picking at the scraps on the plates,  
Hope we all get laid, hope we all stay sane,

Don't let the temptin things get the better of you,  
When the madness starts to obscure the view,  
Be aware that there ain't much to do when you're dead,  
Don't forget what crazy jane always said,

Climb a hill you can see much further!  
Set a fire smokin' high  
Send a message to the next hill over  
Come and sit round this fire tonight

Being in an all night bar starts to twist your mind,  
And when you're all messed up, you're gods gift to humankind,  
There be a golf cart waiting to be parked in the pool,  
Opportunities galore to break a few more rules,

You could wake up in the bath you could wake up at sea,  
As the sun sinks low on the man you used to be,  
Last chance to get a grip take your life in your hands,  
Turn the boat hard around and head for dry land,

Climb a hill you can see much further!  
Set a fire smokin' high  
Send a message to the next hill over  
Come and sit round this fire tonight
