

# Follow Me

## Elevaters

(First Verse)

There is a little boy who's always on his own  
has no companion, doesn't know which way to go  
One day a little girl will pass his little way  
One look into his eyes and he will hear her say

(Chorus)

A little boy come take my hand and follow me  
Let's walk down to the promise land just follow me (yeah)  
without a worries or no cares just follow me (yeah)  
Take my hand lead me there (Yeah)  
Just follow me

(Second Verse)

And soon this little girl will steal his little heart  
He'll try to tell her, but won't know just where to start  
One night while dancing with her close and oh so near  
He'll look into her eyes and whisper in her ear

(Second Chorus)

A little girl come take my hand and follow me (yeah)  
Let's go down to the promise land just follow me (yeah)  
I love you more than i could share, just follow me (yeah)  
Take my hand and leave me there  
Just follow me

A little girl come take my hand and follow me (yeah)  
Let's walk down to the promise land just follow me (yeah)  
Without a worry or a care just follow me (yeah)  
Take my hand and lead me there  
Just follow me

And now this little boy will have a little bride  
Move to a little house and start there little lives  
It won't be easy, They will learn to give and take  
But they will build a bond that time will never break

And now this family will have a little child  
He'll see the little girl when he looks into his eyes  
One day this boy will take his son upon his knee

And with a smile, my father, he will say to me  
I said, one day this boy will take his son upon his knee  
And with smile he will say to me

My son come take my hand and follow me  
Let's walk down to the promise land just follow me (yeah)  
There is so much i'd like to share just follow me (yeah)  
Just take my hand, I'll lead you there  
Just follow me

A little boy come take my hand and follow me (yeah)  
My daughter take my hand and follow me (yeah)  
A little girl come take my hand follow me (Yeah)  
Let's walk down to the promise land
