Watching over Me

Paul Carrack

VERSE #1
As far as I remember,
from my fading memory
My heart is always yearning,
for something to believe
With not much going for me,
but all the world to seeThere must have been an angel,
watching over meVERSE #2
We began a journey,
in search of rock and roll
All my friends were working,
or signing on the dole
We many times went hungry,
when we were young and freeThere must have been an angel,
watching over meBRIDGE #1
Without a clue, just following a dream,
every bit as a naive as it seems
We took it as our duty, or to take it to extremeThere must have been an angel,
watching over meSOLO (accordion)BRIDGE #2
Even now I look back, and wonder if its true
We should come so far from nowhere,
Knowing what I do
If I was a true believer,
I would get down on my kneesThere must have been an angel,
watching over meThere must have been an angel,
watching over meEND
