Should Have Known

[Kingdom Come](#)

Sad songs, strange thoughts, in my head
Can't laugh, can't cry, going mad
Don't know, which way to go
No one can help, I know!
Endless questions, coming on
No direction, what is wrong
Loving, caring, I do
Still I'm feeling so blue
Should have known
I travel in danger zone
Scared to show!
It's not only her, she knows
Hate to see you hurt inside
Help me fight it by my side

Sweet words, won't do no good
Should have known
I travel in danger zone
Scared to show!
It's not only her, she knows
Should have known
I travel in danger zone
Scared to show!
It's not only her, she knows
Had my fun
Now it's too late to run
I have lied
Knowing it ain't just right
