Wooden Heart

The Duke Spirit

No one wastes time quite like I do
I can waste time like nobody else
You can go running back to your friends
You can go running back to your friendsWell, that's how it feels
Oh, that's how it feelsI would understand your heart
If I could feel it
I would understand your heart
If I could feel itAll I have is all that I am feeling
All I feel well it's all that I know
And then I use it every day
And abuse it in every wayAnd that's how it feels
Yeah, that's how it feelsI would understand your heart
If I could feel it
I would understand your heart
If I could feel itThe sky is more certain
Than you will ever be
The rain clouds are angry
At you and at meThe sky is more certain
Than you will ever be
The rain clouds are angry
At you and at meForgive me baby
I am not all that you seeI would understand your heart
If I could feel it
I would understand your heart
If I could feel itI would understand your heart
If I could feel it
Oh, I would understand your heart
If I could feel it
