

# I Wish I Had a Million Friends

**Tom T. Hall**

I wish I had a million friends and the playground as big as the world

I wish I had a million friends, some kittens, some boys and some girls

I wish I had a million friends, some people, some puppies and cats

Some chickens, some mouse and the bird

And maybe I'd like to have a big friendly rat, yeah I wish I had a million friends and the sandbox as big as the  
school

I wish I had a million friends and the frog that goes ribbit in the pool

I wish I had a million friends, I'd like to have all different sorts

One for the morning and the noon and the night

A monkey and a zebra and a big white horse, oh boy I wish I had a million friends who would listen and talk to  
me too

I wish I had a million friends, the whole wide world and the whole big Zoo

I wish I had a million friends who were thoughtful, kind and true

I wish I had a million friends and I wish they were all like you
