

# Faces In the Window

DIO

Give me shelter shelter  
I can face the day  
Then I'll just fade away  
Give me shelter  
Give me shelter Sleep comes slowly  
The fire starts to die  
You open up your eyes Faces in the window  
Noises in the night  
Faces in the window  
Hiding from the light  
Faces in the window We are evil  
And we are all divine  
Creations of the mind  
We are pleasure I see clearly  
Who's behind the wall  
Yes, I can see us all We're faces in the window  
Noises in the night  
Faces in the window  
Hiding from the light  
Faces in the window Give me shelter shelter shelter  
Give me shelter shelter shelter Faces in the window  
Noises in the night  
Faces in the window  
Hiding from the light Faces in the window  
Faces in the window  
Faces in the window  
Faces in the window When the fire starts to die  
And you open up your eyes  
There they are in the window  
Faces in the window We are evil and divine  
Just creations of the mind  
And faces in the window  
Faces in the window Faces in the window
