

Comedown (James Trystan Remix)

Puzzle

Comedown
My eyes are sore
The city keeps spinning
Every time I'm dreaming
You chase me back into the nightmare
Emptiness
Slowly takes shape
Unveiling your face
I see you in every corner
Comedown
You left me on a comedown Comedown
You left me on a comedown
And I can't take no more
Where did you go
I wish that I could breath in
The memories of you skin
My toxic addiction
Look across the floor
Stains where I was bleeding Injecting lies wishing
You'd come back to my bed Comedown
You left me on a comedown Comedown
You left me on a comedown
I can't let go
Of the memories
Where did you go?
Toxicity
I can't let go
You still haunt me
in my dreams
My comedown
Comedown
You left me on a comedown Comedown
You left me on a comedown
I can't let go
Of the memories
Where did you go?
Toxicity
I can't let go
You still haunt me in my dreams

My comedown
