V Is For Vampire

Powerman 5000

Yeah, yeah, yeah, yeah
Yeah, yeah, yeah
Ah, ah, ah, ah, ah, ah, ah
Nobody loves you when your skin is so pale
And your teeth are getting sharper than your black finger nails
Nobody needs you when your eyes turn white
And the light of day can keep you up all night
Because V is for vampire, B is for blood
So give me your money, I'll give you my love
V is for vampire, B is for blood
So give me your money, I'll give you my love
How does it feel when your heart turns black?
And you're looking at yourself but you ain't looking back
You can't die when you're already dead
So forget about forgiveness, forget what they said
Because V is for vampire, B is for blood
So give me your money, I'll give you my love
V is for Vampire, B is for blood

So give me your money, I'll give you my love, come on
The only eyes that you have are red
They're filled with the ash of the quick and the dead
There's no trick and no surprise
You're like the devil in the way that you terrorize
V is for vampire, B is for blood
So give me your money, I'll give you my love
V is for vampire, B is for blood
So give me your money, I'll give you my love
V is for vampire, B is for blood
So give me your money, I'll give you my love
V is for vampire, B is for blood
So give me your money, I'll give you my love
Give you my love
Give you my love
Give you my love
