Fade Away

Subhumans

We live we die
And in between we sit and wonder why
Why must we someday die?
Tried and tested
We live our lives like our dear parents did
Tied down and restricted
Of gods and guns do we need to die
For Christ's sake or for anyone?
They call it religion
And so we pray
For god to save us from our evil ways
They call it self-decay
We live we die
In fear of gods and guns and never knowing why
Why must we someday die?
So live your life
In fear of no one
We must have our say
Before we fade away
