

The History Light

DOGSTAR

I am so blind tonight, from the history light
Everything that's ever happened to me
Is in my head tonightIt's kinda nice not to see another sight
'Til I rest awhile and all I need is sleep
Rest awhile, sleep like a child
Sleep, rest awhile, sleepI am so high tonight, from the history light
Everything that's ever been said to me
Is in my head tonightIt's kinda nice not to hear another sound
'Til I rest awhile and all I need is sleep
Rest awhile, sleep like a child
Sleep, rest awhile, sleepI am so blind tonight, from the history light
Everything that's ever happened to me
Is in my head tonightIt's kinda nice not to see another sight
'Til I rest awhile and all I need is sleep
Rest awhile, sleep like a child
Sleep, rest awhile, sleep
