

# No One Ever Loves In Vain

## Beverley Knight

Every day found us together  
But no one knew of fate's design  
Just as we begun to really live our dreams  
Life ran out of timeEvery moment shared was worth it  
    Memories only I can claim  
    Though it hurts so much  
    It helps me understand  
No one ever loves in vainWhat we had showed me the power  
    Of a very special friend  
Our amazing bond we formed while you were here  
Well that will never endEvery moment shared was worth it, oh yeah  
    Memories only I can claim, yeah  
    Though it hurts so much  
    It helps me understand  
That no one ever loves in vainSometimes I feel like I am so lonely  
    And that's when I know that everything's changed  
    Yet through the tears I smile and say  
I'm so glad you cameEvery moment shared, well, it was worth it  
    Memories only I can claim, only me, yes  
    And though it hurts so much  
    You helped me understand  
    No one ever loves in vain
