

# Truth (Original Rough Sketch)

## Ikon

Today I see you fading away

Today I see my life go by

Look into my eyes

Look into my eyes

Look into my eyes

Look into my eyes Fade away

Fade away

Everyday everyday(2) Today I saw it all in you

Today the truth became known

It just slips away

It just slips away

It just slips away

It just slips away Fade away

Fade away

Everyday everyday(2) From: In The Shadow Of The Angel, Black Radio, The Final Experience

& Thankyou Very Much Goodnight Words by Michael Carrodus
