Heartaches

Sir Charles Thompson

The doctor told me I'd get better in time
The pains in my chest won't drive me outta my mind
A little patience and I'll get over this one
Now even he would admit his diagnosis was wrong

'Cause here come those heartaches again
I've got a memory that's wearin' me thin
I'll have an IV of somethin' strong
'Cause I just might not have that long

'Cause here come those heartaches again
I see you will be checkin' me in
Doctor, give me just one more shot
There's no tellin' how long I've got

I'll need a bypass of anything I might feel
A big glass of pain killer
It might even seem like I'm here
But I won't bother tellin' my HMO
Cause every time I was dyin'
They kept letting me go

And here come those heartaches again
I've got a memory that's wearin' me thin
I'll have an IV of somethin' strong
'Cause I just might not have that long

'Cause here come those heartaches again
I see you will be checkin' me in
Doctor, give me just one more shot
There's no tellin' how long I've got

'Cause here come those heartaches again
