# Before the Fire

## Santigold

I want it sometimesI never wanted much
I never complained
Only want a little love sometimes
I just need a little touch
A little color on a greyscale
Or I forget to inhale sometimesNow I don't even know if you want to stay
Saw you when it all burned down
That look was on your face
Now you want to save this house
Well it's far too late
Oh, you want to be my healer
Now that I'm up in flamesBut I was burned before the fire (I'm burned up)I want it sometimesI don't have another heart
Don't remember how to say
I don't want you to let me down sometimes
I already know this part
Leave it for another day
Wish it wasn't this hard sometimesNow I don't even know if you want to stay
Saw you when it all burned down
That look was on your face
Now you want to save this house
Well it's far too late
Oh, you want to be my healer
Now that I'm up in flamesBut I was burned before the fire (I'm burned up)Before the fire
