

Before the Fire

Santigold

I want it sometimes I never wanted much
I never complained
Only want a little love sometimes
I just need a little touch
A little color on a greyscale
Or I forget to inhale sometimes Now I don't even know if you want to stay
Saw you when it all burned down
That look was on your face
Now you want to save this house
Well it's far too late
Oh, you want to be my healer
Now that I'm up in flames But I was burned before the fire (I'm burned up) I want it sometimes I don't have
another heart
Don't remember how to say
I don't want you to let me down sometimes
I already know this part
Leave it for another day
Wish it wasn't this hard sometimes Now I don't even know if you want to stay
Saw you when it all burned down
That look was on your face
Now you want to save this house
Well it's far too late
Oh, you want to be my healer
Now that I'm up in flames But I was burned before the fire (I'm burned up) Before the fire
