Shiny Strings

Wild Moccasins

O I said how many style of string can you find girl?
If I asked your favorite would you mind girl?
I just see so many, so many of your kind girl
With your material eyes, you just wanna wrap your thighs

Around something shiny and torn
But baby does it keep you warm?

Cause from here your closets the only thing thats
Grown even with all those clothes I, I can see your still cold
Why donâ€™t you try settlinâ€™ down with some simpler things
You gotta stop with all those shiny strings

I can see that boy he starts to unravel
Because you know them rags arenâ€™t fit for travel
Iâ€™m just a little too late too afraid that you are unkind
Stop your material eyes, you just wanna wrap your thighs

Around someone shiny and torn
But baby will he keep you warm?

Cause from here your closets the only thing thats grown
Even with all those men I can see your still cold
Why donâ€™t you try settlinâ€™ down with some simpler things
You gotta stop with all those shiny strings
