

Hero

Massari

I can see the truth and now my mind is made up
I don't want a world where you and I can't breathe
You're all I know and I'm letting go
I feel a brick in every part of me if you say you're not in love
Now I break on my knees, I pop champagne and grab my grab on your waste
I know, that was gonna go, then you're lost,
dropped my heart like a lightning ball
reality
yeah you're my melody
I wanna hold you and keep you for eternity
don't we make enormous things
nobody gonna take your pain
You're my hero
Mine for ever, baby now
Reality
yeah, you're my melody
I wanna hold you and keep you for eternity
Girl you know that you're my hero
When I'm next to you I feel not far my angel
All the way we are , even total strangers
You're all I want
you're incredible
It's like a dream, I can't get enough when you and I are making up
Now I break on my knees, I pop champagne and grab my grab on your waste
I know, that was gonna go, then you're lost,
dropped my heart like a lightning ball
reality
yeah you're my melody
I wanna hold you and keep you for eternity
don't we make enormous things
nobody gonna take your pain
You're my hero
Mine for ever, baby now
Reality
yeah, you're my melody
I wanna hold you and keep you for eternity
Girl you know that you're my hero
They don't know
When I'm out here without you, I'm frozen cold

They don't know
That for you I wanna die in the storm
They ain't get to my heart, the light that brings me home
Like I mean
You show me the meaning of love
You're my hero
Mine for ever, baby now
Reality
yeah, you're my melody
I wanna hold you and keep you for eternity
Girl you know that you're my hero
You're my hero
Mine for ever, baby now
Reality
yeah, you're my melody
I wanna hold you and keep you for eternity
Girl you know that you're my hero
