

It's Elizabeth

Part Time

Send up that phone hey
It's Elizabeth
Let's share that thing that I love her best
All day when there's so much worry on my mind
Well, Well, Well
We can have fun
She said
Hey, it's Elizabeth
At times to worry 'bout what I want next
No time for a bitch
look inside my mind
Yeah, Yeah, Yeah
There's something all around me
Something I can feel
Something complicates me
Does this feel a real
...
I look at my phone, it's
It's Elizabeth
I think to myself, how much I love her best
Worry on my mind and your weight so heavier than mine
Well, Well, Well
I look at my phone
It's Elizabeth
You know I love her best
There's nothing else that matters
She's a rump
...
There's something all around me
Something breaks my heart
I can't understand it
From the start
...
It's Elizabeth
It's Elizabeth
It's Elizabeth
She said
It's Elizabeth
And I love her best

Oh, got worry on my mind

worry on my mind

worry on my mind
