

# How Many Love Songs

## The Shires

How many love songs can there be?  
We got more than we'll ever need  
They'd take a lifetime all to read  
How many love songs can there be?  
Make me wanna write them all  
Every rise and every fall  
Find the perfect melody  
How many love songs can there be? Cause once you've heard a thousand rhymes  
They all sound the same  
And if you're the one I was waiting for  
All my dark days  
To hell with clever, I've just never  
felt like this before  
And I don't ever wanna sell you short  
But how many words have not been said?  
So many hearts have been as blessed  
To know that as I live and breathe  
You're the only one for me  
How many love songs can there be?
