I Like

Jesse Powell

I like the way that you move
I like the things that you do
My love for you is so strong
I'll never leave you alone
So don't take your love away from meBaby, when I need some peace of mind I go to you
Because you always find the time to make me feel brand new
What I feel for you's so strong that you're all I need and all I want
All day and all night long I like the wayI like the way that you move
I like the things that you do
(And I would never do you wrong)
My love for you is so strong
I'll never leave you alone
So don't take your love away from meSee my baby, when I'm hungry for your love, you satisfy me
And the smile that's in your heart tells me that you need me
I would never do you wrong it's gotta be me for you and you for me
You got it going on I like the wayI like the way that you move
I like the things that you do
(And I'll would never do you wrong)
My love for you is so strong
I'll never leave you alone
So don't take your love away from meI like the way that you move
I like the things that you do
(I would never do you wrong)
My love for you is so strong
I'll never leave you alone
So don't take your love away from me, noBaby I like the way
(I'll like the way you)
Promise me that you'll stay with me
Listen to my song never leave you alone, no, no, no
Don't take your love away from me, I'll never do you wrongI like the way that you move
I like the things that you do, yeah
(I would never do you wrong)
My love for you is so strong
I'll never leave you alone
So don't take your love away from meThe way that you move, the things that you do
Don't take your love away from me, no no, oh, [Incomprehensible]
Never leave you alone, never leave you alone
Baby I likeI like the way that you move
I like the things that you do

(Oh, don't take your love, don't take your love)
My love for you is so strong
I'll never leave you alone
No I need it and I want it and I'll never live without it no no noI like the way that you move
I like the things that you do, yeah
(I would never do you wrong)
My love for you is so strong
I'll never leave you alone
Never leave you alone, no no, no baby I like, I like
