

The Night They Returned

Kataklysm

I've got the urge to kill, to see the blood flow
My lust for you grows, to carve up that inner glow
Seduce me with your death, my love for you is red
Random Killings, Individual Torture
Blood feast. Carnage Done They are the flesh eaters
Let the fire burn The night they return As I lay you to rest your remains are mine to test
I feast on your soul like never before
Seduce me with your death, my love for you is red
Random Killings. Individual Torture
Blood feast. Carnage Done They are the flesh eaters
Let the fire burn The night they return
