IRS

Emerald Storm

Monday kills, Tuesday sucks as always
So my week has begun
Someone stop me, parachute's failing
I'm fed up!Tossin' and turning
My life is on hold
I wait but the line has gone coldCom'on and face me, take me
Now that it's your time to pay, and you will
You befriend me, bend me
Over and over again and againAgain?Breaking news feel my head exploding
Who will clean up the mess?
Start the car could just run you over
I'm fed up!Running in circles
My life is on hold
I wait but the line is still coldCom'on and face me, take me
Now that it's your time to pay and you will
You befriend me, bend me
Over and over again and againPlease gimme a break
What can I do?
Yes, I think I should
Terminate you, you, you, you...Why don't you face me, take me
Now that it's your time to pay, and you will
You befriend me, bend me
Over and over again and againCom'on and face me, take me
Over and over again and again
