Friendship Forever

Retard-O-Bot

My dreams come in every shape
And when I close my eyes
I can't help what I come to realize
That everything starts making senseIf I have something I'm trying to forget
Regret won't let me let it go
I can't shake it until I awake
Until I awakeCut loose from these rules
That only hold me back and
Retract what I thought was clear
Now that I can't live this wayYou're gone now
And nobody cares
And nobody caresYear in year out, take that smile
(?)
(?)
I stuck aroundThis is what I needMy dreams come in every shape
And when I close my eyes
I can't help what I come to realize
That everything starts making senseIf I have something I'm trying to forget
Regret won't let me let it go
