

# Friendship Forever

## Retard-O-Bot

My dreams come in every shape  
And when I close my eyes  
I can't help what I come to realize  
That everything starts making sense  
If I have something I'm trying to forget  
Regret won't let me let it go  
I can't shake it until I awake  
Until I awake  
Cut loose from these rules  
That only hold me back and  
Retract what I thought was clear  
Now that I can't live this way  
You're gone now  
And nobody cares  
And nobody cares  
Year in year out, take that smile  
(?)  
(?)  
I stuck around  
This is what I need  
My dreams come in every shape  
And when I close my eyes  
I can't help what I come to realize  
That everything starts making sense  
If I have something I'm trying to forget  
Regret won't let me let it go
