

Box of Fantasy

G Tom Mac

Come along & be with me in my Box Of Fantasy

For everything you fear, for every tear in beer
There is a big small box that you should know about
Well there's a place I go only you can know
That's if you want to get out of your demon head

Come along & be with me in my Box Of Fantasy

Oh what'll it be?

Come along & chase with me
The wild lighting to the carousel on the sea
Come aboard

You've got to park your heart & be what you're not
You'll never do something this fun again on your own
It's in the chance we take it's not the things we fake
If only we could be our bad selves everyday " I said

Come along & be with me in my Box Of Fantasy

Oh what'll it be?

Come along & chase with me
The wild lighting to the carousel on the sea
In my fantasy

I'll put you back to bed I'll kiss you on the head
& when you wake up you will believe in yourself

Come along & be with me in my Box Of Fantasy

Oh what'll it be?

Come along & chase with me
The wild lighting on the sea
My fantasy " come along
