## Anthem 2

## **Jakalope**

Uh-oh, did you slip? Oh no, lost your grip Oh, just go with it Don't be a secret You were born for thisBe contagious Be elated The next reigner Be a believer You were born for this No such thing as mistaken Just learn from what you're takin' And oh be your own strength Your own destination When you stand on belief Tower over defeat Stand up you were born for this No such thing as mistaken (this if life for the taking) Just learn from what you're takin' And oh be your own strength (It's yours if you make it) Your own destination When you stand on belief (So go on and take it) Tower over defeat Stand up you were born for this You were born for this [x8]
