

Kiss My Sass

Cobra Starship

They say that kiddie's got I'm bringing sassy back, I never finish a thought
You can't forget 'cos you know nothing but my name
And I don't wanna hear about people I don't know
Not you, not him, not her, no You only see what I let you see
Nothing less and nothing more
What you say is nothing new to me, honestly They say that kiddie's got soul
I'm everywhere that you go
And I've been there, seen that
And I ain't taking you home, no
Oh, oh, oh, oh, oh, oh I'm in God I like, I can be a nasty guy
So you should promise me
Cos' you're a wolf and coming quick
And if you don't get it let me repeat it just forget what you think Only see what I let you see
Over and over again
What you say is nothing new to me, honestly They say that kiddie's got soul
I'm everywhere that you go
And I've been there seen that
And I ain't taking you home, no But what do they know
I'm everywhere that you go and I've still got soul
And I've been there, seen that
And I ain't taking you home, no
Oh, oh, oh, oh, oh, oh Here we go
They say that the kid has got more so than flight club
Can't you tell by the way I use my wall
Travis stay way cool than the hand that look at
Let it bite too many times worse than my whore Yeah, it took a little time but I'm finally here
Ten years deep just to make things clear
Now what we got going double B's in the air
Now get it off your chest like a tight little sear Don't regret it, just let it
Give credit, don't sweat it
You can try but you just can't stop
Fangs up, cobra style, honestly They say that kiddie's got soul
I'll never let you go
And I've been there, seen that
And I ain't taking you home, no But what do they know
I'm everywhere that you go and I've still got soul
And I've been there, seen that
And I ain't taking you home
Oh, oh, oh I'm everywhere that you go

And I've been there, seen that
And I ain't taking you home
