Death Threat

I guess you thought you had us figured out
You know our kind - you know what we're about
But you don't know the shit that we've been through
 The pain we felt - we're tried and true
 So quick to judge - we're not like you
 And to your world - we say FUCK YOU
 So quick to judge - we're not like you
 And to your world - we say FUCK YOU
 Who the fuck are - to judge me
 It's my life and I'll do as I please
 Answer to no one - conform to nothing
 I am who I am from years of suffering
 Hardcore to the day that I die
 Hardcore - it comes from inside
 So quick to judge - because we're not like you
 And to your world - we say FUCK YOU
 We'll never be like you
 Fuck your world and FUCK YOU TOO
