

# Angels Never Call

## 'Til Tuesday

I used to watch her sleep  
An angel on vacation  
I fell in love so deep  
Far too far to mention She looked just like a thousand stars  
When they came out at night  
But when I looked inside her heart  
I found it locked up tight Oh, angels never help you  
'Cause angels always fall She smoked a cigarette  
It only blurred my vision  
I couldn't help but stay  
With my first impression I'm wondering with every breath  
What caused my fall from grace  
I guess I beat myself to death  
Against her lovely face Oh, angels never help you  
'Cause angels always fall And angels  
(It's simply that I never knew her)  
Sometimes kiss you  
(Wish to God that I had known)  
Oh, but angels  
(Everything that I remember)  
Never call  
(Is gone) Angels  
(It's simply that I never knew her)  
Never help you  
(Wish to God that I had known)  
'Cause angels  
(Everything that I remember)  
Always fall  
(Is gone) And angels  
(It's simply that I never knew her)  
Sometimes kiss you  
(Wish to God that I had known)  
Oh, but angels  
(Everything that I remember)  
Never call  
(Is gone) I used to watch you sleep  
An angel on vacation
