

Rollin'

Tim Stop

I don't understand it what you're all about
Seems you like to see me when I'm down and out
So you use me, you abuse me
And I take it cuz I know without a doubt This fight just isn't fair
Cuz when you love me
Nothing else compares One hit, I keep rollin'
Two shots, I won't slow
I know I should leave you but my heart won't let me go
Tell me I'm a liar
Call me what you will
But throw in that you love me and I'm rollin' with ya
Right with ya still Do you wanna know what my friends say?
They think I'm crazy, must be out my mind to stay
They think you're cold, think you're bitter, think you're cruel
But underneath you hide the sweetest kind of fruit And I don't know what's in it
But whatever it is
I must be addicted to it cuz One hit, I keep rollin'
Two shots, I won't slow
I know I should leave you but my heart won't let me go
Tell me I'm a liar
Call me what you will
But throw in that you love me and I'm rollin' with ya
Right with ya still And you need me is what my hunch is
So I keep on rollin' with the
Rollin' with the punches One hit, I keep rollin'
Two shots, and I'll stay
I know I should leave you but my legs won't walk away
Tell me I'm a liar
Call me what you will
But throw in that you love me and I'm rollin' with ya
Right with ya still I keep rollin' along
