Contentment

Candy West

Can I be honest
There are seasons I go through and I don't like what I feel
I don't like what I see
But you promised
this afflictions and phase are only momentary
This is not the end
cos you know what's best for me

Chorus
Lord help me be content with where i am
Because you know my end from my beginning
Help me trust your heart when I can't see your hand because you're never ever without a plan and you know what's best for me.

Yes you do Lord
you know what's best for me...

So when am on the mountain or down in the valley
You said am never alone
You promised that you would be there
And if I find myself down in the pit again
you will reach out your hand
cos this is not the end
cos you know what's best for me

Chorus

You know what's best for me
You know the thoughts you have towards me and I've got to trust you more

I know what it means to have plenty
what it means to be in want
To be Marching with an army or fighting all alone
And know the pain of lost love ones
The joy of the crowd
What it means to take flight and be stuck on the ground
But no matter what state that I found myself in
You said that you know my beginning from my end oh
Contentment is knowing that you never unaware
And no matter where I am

You will always be there ... always be there 2x

Chorus

I may not like how I feel
I may not like what i see
But I got to trust you have a plan for me
Ohhhh that you know

You may be in a pit right now
But the pit is not the end ohhh
You know what's best for me
From the pit to the prison
From the prison to the palace
From the palace to the prison
You know what's best for me
From the prison to the palace because your plan was to make me the head, make me greater, make me stronger
And you know what's best for me

Chorus

He knows how you feel
He knows where you are
He knows how it hurts
He knows what you see
He knows where you are
He knows how it feels
He knows how it hurts
He knows
But He knows what's best for you
