Get It Back

Whitney Houston

You're ready? Ahh
Whitney, dark child
If we could get it back
If we could get it back, ahh
Yea, check it out, come onRemember when it all began
We were all in love, ahh
Thinking of friends telling you when
Your time for me was good enough
I testily had to compete
With your crew and their schemes
Remembering, back in the day
I used to mean everything(If we could just get it back)
To the way it used to be
(My only wish would be that)
Nothing would change with you and me
(I remember how it was)
And I know that for a fact
(We were both so deep in love)
If we could just get it backNow tell me why so many nights
You had so much to do, baby
When you said bye, sometimes I tried
I tried to make you choose
Now tell me how you can allow
Your boys to control, darlin'
The time we share, it wasn't fair
But now you need to know(Now if I told you)
That I'm movin' on
(Boy, what would you do?)
Oh, things just ain't the same, na, na, nana
(We were suppose to)
Oh baby, conquer everything, yea, yea, na
(Boy, if I tell you)
You've got to make a change, ohh boy(If we could just get it back)
Oh, baby some other way we used to be
(My only wish would be that)
Nothin' would change for you and me
(I remember how it was)
And I know that for a fact, ahh
(We were both so deep in love)

If we could just get it back(If we could just get it back)
Can we do it, can we do it, can we do it, can we do it now baby?
(My only wish would be that)
Nothin' would change for you and me boy
(I remember how it was)
And I know that for a fact, ahh
(We were both so deep in love)
If we could just get it backRemember how we used to dance?
I like the way we used to dance
Girl let me see you dance
Just dance with me, dance with me, ahh
Remember how we used to dance?
(Good boy)
I like the way we used to dance
Girl let me see you dance
Just dance with me, dance with me
(If we could just get it back)
(My only wish would be that)
Com'n now
Nothing would change for you and me boy
(I remember how it was)
And I know that for a fact ahh
(We were both so deep in love)
If we could just get it back(If we could just get it back)
Ohh, to the way we used to be baby
(My only wish would be that)
Nothin' would change for you and me
(I remember how it was)
Oh, to the way we used to be baby
(We were both so deep in love)
I'm in love, I'm in love
(If we could just get it back)
Ohh yea
(If we could just get it back)
Just get it back to the way it used to be
(My only wish would be that)
If we could just get it back
(I remember how it was)
Ohh, baby, ohh baby
(We were both so deep in love)
Show me, show me, show me, show meIf we could just get it back
If we could just get it back
If we could just get it back
