

# Blurred

## E.T.A. (duplicate 1)

Make up your mind, what's your decision  
Don't say that to me, looking back to before  
Was it me that pushed you out the door?  
Now I am the one that you want to meet  
I can't shake your hand  
You stared at your son but not for long  
I wasn't the one that gave you up  
Believe in you, son, 'cause I'm right here  
You were never there  
It's not like before, somewhere in the middle of it all  
You're looking at me, thinking back to before  
It wasn't me that pushed you out the door

Now I am the one that you want to meet  
You're my newest fan  
You stared at your son but not for long  
I wasn't the one that gave you up  
Believe in you, son, 'cause I'm right here  
You were never there  
You were not there, no, it's just not fair, no  
Do you care? No, I don't care  
You're still not here, it's not fair  
You don't care, I don't care
