

I'm Confused

Handsome Furs

I saw their lights on the boulevard
My blood ran like water back and forth
Somebody's out there
There's nothing to do
My mind was set on you I felt a chill creeping down my neck
But darling, please, say we're not done yet
Somebody's out there
There's nothing to do
My mind was set on you I'm confused (3x)
I know, my love, I know it's easy to do I hope this life don't get you down
This dirty old time in this dirty old town
And if you're feeling instructive
There's something to do
Sometimes we get confused I'm confused (3x)
I know, my love, I know it's easy to do I'm confused (3x)
I know, my love, I know it's easy to do
I'm confused (3x)
