

# Anyday Anyhow

## Grinspoon

Forgot to mention the new detention  
Forgone conclusion, current lack of inspiration  
Sophisticated, unpopulated, choose a television set  
Of color screen sensation Do you think that I was wrong?  
I've got a patient family  
Was the plan meant to go there?  
Anyday, anyhow Say what you want to, belong to anytime  
We don't come here very often, sold on side Believe that I'd never lie here  
I couldn't feed another savior  
If the trouble ended up and did you wrong  
Come say and get another reading Did I do things much better?  
Did I do things much worse?  
Was it that patient family  
Waiting there patiently? Say what you want to, belong to anytime  
We don't come here very often, sold on side Say what you want to, belong to anytime  
We don't come in very often, sold on side  
Say what you want to, belong to anytime  
We don't come here very often, sold on
