## Lacrimas Profundere

I gave it up and it ends  
When youth collide in me, I got it  
Don't wash your tears in me  
I gave it up for you Being nothing but  
But I can't do that  
I need no one or no lives So everything will be nothing  
I can't ease your burden Being nothing but  
But I can't do that  
I need no one or no lives
