

# Living Against the River

## Incognito

In the early morning light, you step into the cold  
Your curses freeze mid air, the bus is late  
You've got to get to work on time, your job is on the line  
Soon you'll start again, the same routineDeep inside your mind  
The dreamers dream you'll find  
As the day is long, it keeps you moving on  
Trying to stay ahead as best you canSweep away the notion of a revolution  
Do it for yourselfThere's no stoppin'  
Living against the river  
Do what you do, what you do  
Got to keep pushing  
When you're living against the river  
Do what you do, what you doAs the light begins to fade  
And you're heading back for home  
Your head is hanging low  
You're feeling blueFrom the corner of your eyes  
Under neon lights you see  
The old man in the snow  
With worn out shoesSweep away the notion of a revolution  
Do it for yourselfThere's no stoppin'  
Living against the river  
Do what you do, what you do  
Got to keep pushing  
When you're living against the river  
Do what you do, what you doSweep away the notion of a revolution  
Do it for yourselfThere's no stoppin'  
Living against the river  
Do what you do, what you do  
Got to keep pushing  
When you're living against the river  
Do what you do, what you doThere's no stoppin'  
Living against the river  
Do what you do, what you do  
Got to keep pushing  
When you're living against the river  
Do what you do, what you doThere's no stoppin'  
Living against the river  
Do what you do, what you do  
Got to keep pushing

When you're living against the river There's no stoppin'  
Living against the river  
Do what you do, what you do  
Got to keep pushing
