

Mend

Spineshank

Forgive me for all you've done If I led your eyes to see

If I fed your mind with sickened thoughts

Would you consciously conceive

Everything that I have offered you? Shame

Stronger than

Pride

Stronger than

Hate

Stronger than

Life If I lied to you would you still believe?

Mend your soul from my little fucking game Forgive me for all you've done Have I made your life a mess?

Is your soul perverted just like mine?

Inconvenienced by distress

Let it go, there's nowhere left to hide Shame

Stronger than

Pride

Stronger than

Hate

Stronger than

Life If I lied to you would you still believe?

Mend your soul from my little fucking game Stronger than life
