Here Right Now

Reno Bo

Head in the clouds you never touch the ground
You're in such a hurry you might lose what you've found
In an out of town, time for you to settle down
Stand back take a look around you
You're running from the pressures of the restless world
Hush for a moment, baby, just be stillHere now
Spend a minute next to me
Slow down
Take the time to let it be
I wanna show you there's no place better than here right nowMeet me where icebergs melt in the sun
(Ooh)
Let all the ties that bound you come undone
(Ooh)
Open up you're alive I miss the fire in your eyes
Give a sign, tell me that you want me
When your overwhelming life becomes too much
(Ooh)
Take another breath and you will see
(Ooh)Here now
Spend a minute next to me
Slow down
Take the time to let it be
I wanna show you there's no place better than here right now
Here right now
Here right nowRemember how we laugh and carry on
(Carry on)
Long before the madness had begun
(Ehh)Here now
Spend a minute next to me
Slow down
Take the time to let it be
I wanna show you there's no place better than here right nowHere now
Spend a minute next to me
Slow down
Take the time to let it be
I wanna show you there's no place better than here right now
Here right now
Here right now
